1.INTRODUÇÃO

After implementation of keypoint-detection, descriptor extraction and keypoint-matching in consecutive images, the results obtained are presented in the following sections. Here are some notes on the results:

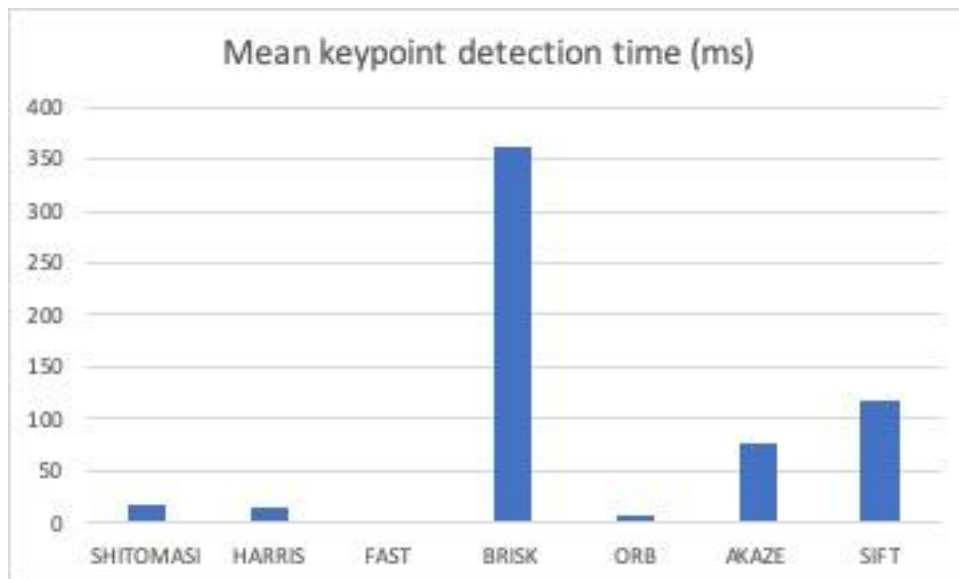

- * AKAZE detector works only with AKAZE descriptor
- * For matching with SIFT descriptor we need to use FLANN. SIFT does not work with BF
- * SIFT detector and ORB descriptor do not work together
- * for SHITOMASI blockSize of 4 has been used
- * for HARRIS blockSize of 2 has been used

2.KEYPOINT-DETECTED

Total number of keypoints detected by each method for every image are listed in the table bellow:

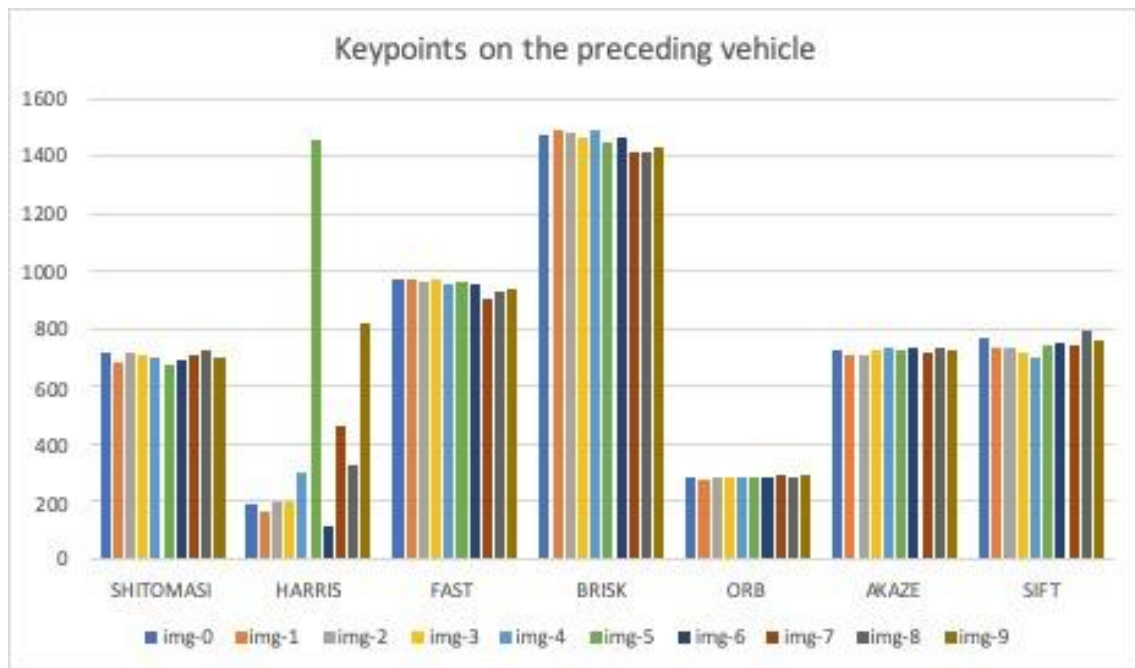

IMAGEM	SHITOMASI	HARRIS	FAST	BRISK	ORB	AKAZE	SIFT

Corresponding time taken in detection is shown in the plot here along with a sample output for `AKAZE` descriptor:

3.NEIGHBORHOOD SIZE

As far as distribution of neighborhood size of keypoints detected on preceding vehicle is concerned, some of the detector methods have fixed neighborhood sizes, namely:

- * SHITOMASI -- 4
- * HARRIS -- 6
- * FAST -- 7

while others have a distribution, among which ORB seems to have large spread. The distribution is shown in following four figures and standard deviation is tabulated here:

DETECTOR	BRISK	ORB	AKAZE	SIFT
standard-deviation	14.40	25.83	3.43	6.30

4.MATCHED KEYPOINTS

6.RECOMMENDATION

In a dynamic scenario like autonomous driving, the speed and accuracy of detection are of utmost importance. Hence, to arrive at recommendation, I computed the ratio of mean-matched-keypoints to mean-detection-extraction-time, defining a score parameter as:

$$\text{score} = 1000 * (\text{mean-matched-keypoints} / \text{mean-detection-extraction-time})$$

The corresponding scores are shown in image below, with highest three highlighted in different shades of green.

detector/descriptor	BRISK	BRIEF	ORB	FREAK	AKAZE	SIFT
SHITOMASI	721	18,199	16,815	4,494	N/A	9,547
HARRIS	421	10,158	9,849	2,780	N/A	3,404
FAST	1,061	112,389	134,902	7,449	N/A	12,324
BRISK	808	2,268	1,535	1,352	N/A	1,599
ORB	462	17,339	13,275	1,468	N/A	1,903
AKAZE	888	5,329	4,403	3,085	2,706	3,488
SIFT	631	2,839	N/A	1,647	N/A	1,521

Based on these scores my recommendations are:

RANK	DETECTOR	DESCRIPTOR
1	FAST	ORB
2	FAST	BRIEF
3	SHITOMASI	BRIEF
